

CERTIFICATE OF PARTICIPATION

This certificate is awarded to

Tochukwu Ibechem

for successful completion of

Machine Learning / AI (hybrid)

OUTLINE:

During the 14-week Machine Learning & AI course, students gained practical skills in building, evaluating, and applying machine learning models using Python.

CONTENTS:

The course included the following areas:

- Introduction to Machine Learning: Understanding key concepts, models, and workflows.
- Supervised Learning: Applying regression and classification methods.
- Unsupervised Learning: Exploring clustering and dimensionality reduction.
- Model Evaluation: Preparing data and evaluating model performance.
- AI Applications: Overview of real-world use cases.
- Final Project: Applying all learned concepts in a hands-on project.
- Career Readiness: Preparing for job applications and further learning in data and AI.

This course was held for a period of 48 hours from 17/03/2025 to 19/06/2025.

Berlin, 20/06/2025
